Dear *Giovanni,*

ICAO welcomes your initiative toward implementation of the liberalization principles agreed upon at the Fifth Worldwide Air Transport Conference held in 2003 through a meeting to be convened on 25 and 26 October 2008.

The idea of incrementally implementing elements of liberalization at States' initiative, using existing agreements as a starting point, is consistent with the recommendations of the AT Conference.

Unfortunately, due to previous commitments in Japan, I will not be able to join you in person at this meeting. Nevertheless, I wish you all success over this weekend and assure you that ICAO continues to work with States in this regard.

Yours sincerely,

Roberto Kobeh González
